

JUNIOR GEOLOGIST (GIT / Stagiaire)

ABOUT US

Dahrouge Geological Consulting Ltd. is a North American mining and mineral exploration consulting company providing professional expertise in geological, logistical, and project management services through all stages of the mining value chain over a wide variety of commodities and materials.

POSITION SUMMARY & QUALIFICATIONS

Our team is currently seeking multiple Junior Geologists (GIT / Stagiaire) to assist on an exploration project located in the James Bay Region of Quebec, Canada. Exploration will be based out of a road-accessible camp on an anticipated two-week fly-in-fly-out charter schedule. Positions currently anticipate tentative and approximate start dates of February 9, 2021 and February 23, 2021 on a two-week rotation. Duration of the contract is to-be-determined; however, the contract holds potential to extend through December 2021 depending on client and applicant availability. Ideal candidates will hold the following qualifications:

- Must be based in the Province of Quebec, Canada;
- Obtained B.Sc. in Geology / Earth Sciences / Geological Engineering from an accredited University
- Excellent verbal and written communication skills;
- Familiarity with Microsoft Office software required;
- Fluency in both English and French is preferred;
- Familiarity with ArcGIS, Leapfrog Geo, Vulcan, and/or GEMS considered a strong asset;
- Experience and/or training with ATV's and/or helicopter operations considered an asset;
- Registration with the OIQ or OGQ, if applicable, is required;
- Experience in the mineral exploration industry with knowledge of field practices is desired.

ESSENTIAL RESPONSIBILITIES

The positions will consist primarily of field work under the supervision of the Lead Geologist on site with the additional possibility of at-home office work. Field duties will focus on various core facility tasks including the piecing and metre marking of drill core, the collection of drill core geotechnical data, material sampling and other related activities. Home-based office duties may include data entry, data validation, and other similar activities. Candidates should expect to encounter and maintain:

- Ability to work in a fast-paced and dynamic environment while adhering to company Health, Safety, and Environmental protocols;
- Ability to spend ample amount of time outdoors and work in remote locations;
- Ability to work in a team setting with a positive, proactive, and flexible attitude.

The positions will serve as an excellent opportunity to grow with the company beyond the current posting through potential placement on additional future projects. Interested candidates should submit an updated resume, cover letter, and anticipated date of availability to careers@dahrouge.com.
